Nursing Reference Center™ (NRC) is a comprehensive reference tool designed to provide relevant clinical resources directly at the point-of-care. This database offers the best available and most recent clinical evidence from thousands of full-text documents. Nursing Reference Center provides in-depth content covering areas including conditions and diseases, patient education, drug information, lab & diagnosis detail, best practice guidelines, and much more.

How Do I Access Nursing Reference Center?
In addition to access from workstations located throughout your hospital or medical facility, the information below can be used to log in to Nursing Reference Center from outside of your primary institutional location:

NRC can be found on Loyola Health Sciences library website under QUICK LINKS at http://library.luhs.org

For questions about using NRC or for access from home call 6-9192 or email researchservices@lumc.edu
