

There's nursing.
And then there's nursing at Loyola.

Tamera Keith, RN
Women's Health & Newborn Nursery

Loyola nurses, such as medical/surgical specialist Tamera Keith, practice an exemplary level of patient care. We offer them every opportunity to stimulate their professional development in subspecialty clinical settings or inpatient care. They're encouraged to continue their education as far as they like at Loyola's Niehoff School of Nursing. They have opportunities to participate in research. **This is what makes exceptional nurses want to work at Loyola University Health System.** Their dedication and compassion toward our patients enables us to provide the best care. More than anyone else, they know we don't just treat illness. We also treat the human spirit. If you would like to join the Loyola team, visit us online at www.luhs.org/nursing or fax your resume to Human Resources at (708) 216-4918.
